RESIDENT MATCHING PROGRAM

TERMS OF LETTER OF AGREEMENT

Committing a PGY2 Residency Position Beginning in 2010 to a Current PGY1 Resident

The PGY2 residency program identified on the letter of agreement wishes to offer a position that starts training between June 1, 2010 and December 31, 2010 to the resident identified on the letter of agreement, and the resident wishes to accept the PGY2 position. The residency program and resident have satisfied the following conditions:

1. The residency sponsor has a formal, written policy regarding the promotion of the PGY2 residency to PGY1 residents, and how candidates will be selected and assessed.
2. The resident is a current PGY1 resident in a PGY1 residency offered by the same sponsor as the PGY2 residency (e.g., the same or an affiliated organization). Determination of whether the PGY1 and PGY2 residencies are in fact offered by the same sponsor will be at the discretion of the ASHP.
3. The PGY1 and PGY2 residencies will be continuous years of employment for the resident.
4. The residency program and position are currently registered for the 2010 ASHP Resident Matching Program (the "Match"). Note: the current PGY1 resident does not have to be registered currently for the Match.
5. The residency program has provided complete and accurate information to the resident concerning the position, including all organizational, residency and program policies related to eligibility requirements for appointment.

The residency program agrees to offer to the resident an appointment in the residency program, and the resident agrees to accept appointment to the residency program for PGY2 training beginning in 2010.

The residency program and the resident acknowledge that appointment of the resident to the program may be contingent on the resident satisfying eligibility requirements specified by the organization and residency program.

It is understood that the resident cannot avoid accepting appointment to the program without a written release from the program; furthermore, without this release another residency program participating in the Match cannot offer a position to the resident, and the resident will not make any commitments to or contracts with any other program for PGY2 training beginning in 2010. If the resident has already registered for the 2010 Match, then by signing the letter of agreement the resident agrees to be withdrawn from the Match, and will not submit a Rank Order List for the Match. If the resident has not yet registered for the 2010 Match, then the resident will not register for the 2010 Match.

The residency program agrees that the PGY2 position that has been committed to the resident will not be offered to any other applicant without a written release from the resident. By signing the letter of agreement, the residency program agrees to have the position withdrawn from the Match, and will not submit any rankings for the position in the Match. The residency program has provided on the letter of agreement the updated number of positions that it will offer in the Match, excluding the position being committed to the resident. If the number of positions remaining in the 2010 Match for this program as indicated on the letter of agreement has been reduced to zero, the program understands and agrees that the residency program will be withdrawn from the Match.

Both the residency program and the resident agree to permit the reporting of the placement of the resident into the residency position to the ASHP, to the resident's school of graduation, to other residency programs participating in the Match, and to others, either by mail or electronically.

The residency program agrees to submit with the letter of agreement a fee of \$112 payable to National Matching Services Inc. by check or U.S. bank money order (not a U.S. postal money order) for the position committed to the resident. The letter of agreement and fee must be received at NMS by December 18, 2009. Agreements received after that date may not be accepted, and in that case the position will not be considered committed to the resident, but must be offered to the resident or any other applicant through the matching process.

It is understood that the ASHP possesses beneficiary standing to enforce the letter of agreement, and violations of the terms of the letter of agreement will be reported to the ASHP. If either the residency program or the resident violate any of the terms of the letter of agreement, such as the program not offering appointment to the resident or the resident refusing to accept the appointment, the ASHP may pursue all available remedies and may impose penalties on the residency program or the resident, including being barred from participation in future ASHP Resident Matching Programs or forfeiture of ASHP accreditation status.
